USDA Choice Whole Beef Briskets

(118)

Because of its coarse texture and high amounts of marbling, brisket has long been popular in BBQ preparations, as well as smoking, braising, and roasting.

Silver Fern New Zealand Grass Fed Beef

IRP is proud to partner with Silver Fern Farms, our 100% grass-fed beef line. Silver Fern cattle are pasture-raised in New Zealand, where the climate supports abundant grass growth year-round. Free-range raised, these cattle are never given growth hormones or antibiotics. The entire island of New Zealand is GMO free, so this product line fits the description of what many end-users are looking for in their protein today.

Grass-Fed Boneless Striploins

(1GF180A)

Grass-Fed Boneless Ribeyes

(1GF112A)

Fresh Halibut Fillet (boneless, skinless)

(SHF)

Sailing from Woods Harbor, Nova Scotia, the Mood Brothers are landing 85+ lb Halibut, which produce large, thick fillets. Atlantic Halibut, because of their high fat content, are the best eating of the halibut family.

Carolina Mountain Rainbow Trout Fillets (6-8 oz, skin-on, boneless)

(SRTFN)

Carolina Mountain started farming trout in 1980 in the cold, crystal clear waters of the western Carolina Mountains. One taste and you will see how fresh and clean tasting this fish is.
